

From Restrop Road to Church Place Lydiard Millicent

the pastoral responsibility of All Saints Lydiard Millicent,
our parish neighbours being Purton Evangelical Group of St Mary's Purton and
Purton Methodist Church

At [SU085862] the boundary crosses (W-E) Bagbury Lane; there is a boundary stone here on the East side of the lane. The boundary line is also marked by trees in the hedgerow.

At [SU079861] the parish boundary crosses (W to E) Restrop Road; there is a boundary stone on the East side of the road under a road sign. The boundary continues in an Easterly direction following the line of the hedge and ditch field boundary. There is no public access to or along the boundary at this point. We walked along Green Hill to the back of 4 Green Hill where we gained the boundary with permission, via the field at the back of the commercial estate. There is no public access here. Apart from the hedge and ditch field boundary there is nothing to mark the boundary here. We walked East along the hedge and through two gates to Bagbury Lane

The boundary heads across the field on a line slightly North of East. We crossed a gate into the field to the East and walked East passing a small copes of trees on our left (to our North) and met a hedge and ditch field boundary at [SU087862] which we then followed broadly Eastwards.

The boundary follows the field boundary ditch until a public footpath crosses it at [SU088863], there is a boundary stone here. The boundary then continues to follow the ditch and hedge eastwards, we diverted North to cross the next field boundary (and its deep ditch at a convenient stile on the public footpath, regained the boundary and followed in continuing on a North-East course.

Just before the next field boundary, at [SU090864] we crossed the ditch to our South and continued across a fence in a South-Easterly direction. There is no public access here. The boundary follows the ditch (which becomes a small stream) towards Church Place. There is nothing apart from trees at the stream, to mark the boundary at this point...though some of the trees are splendid...

There is no easy exit onto Church Place at this point, except for water, so we diverted South to the gate at [SU094861]

Thanks to:
 Ms. Caroline James,
 Mr. Simon Ward of The Old Farmhouse,
 Mr. Jim Stubbs of Green Hill,
 Mr. Michael Smith of Washpool, and
 Mr. Burt Hoare of Manor Farm
 for their assistance in researching this section of the route

Further thanks to Mr. Stubbs, Mr. Smith and Mr. Hoare for their permission to access the boundary
